Branding items made: We used a symbol that represents history and heritage in Egypt. The name of the page, Epic Egypt, was chosen to make the brand more exciting, engaging, and meaningful — encouraging people to take a closer look at Egypt.

We kept the color palette very simple to keep the focus on the content itself.

The words Epic Egypt were written in a unique, playful font to reflect the fun and adventurous spirit of the brand.

We also added a slogan to strengthen the identity and message of the page.

From the KPIs:

- Page Follower Growth: Our goal was to grow from 100 to 500 followers. Currently, our Instagram page has reached 213 followers.
- Engagement Level: While the number of views exceeded 9%, comments and likes were not very high, indicating low interaction despite decent visibility.
- Post Reach Benchmarks: We aimed for 40 to 60 organic views per day, and this target was achieved.
- Paid Ads Performance: Views from paid ads increased from 12,000 to 15,000. In fact, during our campaign, paid ads reached over 15,000 views, surpassing our goal.

5) Social Media Links

7. Recommendations and Improvements

- Boost Engagement: Since views were high but likes and comments were low, it would help to make posts more interactive. Try adding questions, polls, or running small giveaways to encourage followers to respond.
- Improve Content Quality: Focus on creating more visually appealing and relevant content that speaks directly to your target audience in both tone and topic.
- Invest More in Paid Ads: Paid campaigns performed well, so it's a good idea to increase the ad budget in future campaigns while making sure to target the right audience for even better results.
- Track Performance Regularly: Keep monitoring your content's performance to figure out what works best — like which post types or times get the most attention.
- Promote the Page: Collaborate with small influencers or similar pages to help grow your follower base in a more organic way.
